

I'm Still Alive

(I Will Survive: Gloria Gaynor)

At first, I was afraid, I was petrified,
Hunters chasing me, in the woods, nowhere to hide.
When he took the shot, he tried to bring me down,
Little did he know, I'd be the talk of the town.

And now I'm back, thought I was dead
I weaved through the trees, trying my best to dodge that lead
I tried to hunker down, and thought I had escaped his hunting spree,
Next thing I know, he grabbed me by my knees

(Pre-Chorus)

Now here I am, mounted up high,
Then it happened,
A miracle you can't deny.
You should have seen his face when I began to talk,
He turned white,
And he ran out in shock.

(Chorus - Host and Marvin)

Oh no, not I, I'm still alive,
From the woods to the wall, I'm thriving in the afterlife,
I've got eternity to live,
And I've got a hunter to forgive, and I will thrive
I am alive, hey, hey.

Interlude

One day, while walking through the woods, I was looking for something to eat,
My tummy rumbling, and then I met a chipmunk named Pete
He'd spent oh so many nights looking for his family
He began to cry
But I want a Boston Cream Pie
I'm sorry Pete, but I have to go,
I see a beautiful elk eating in that open meadow

And so I started walking on, when all my nerves began to flow,
My hooves started to sweat. When I found, I was standing in the road.

Piano cut and play Semi honking sound effect

(Pre-Chorus)

Now here I am, mounted up high,

Then it happened,

A miracle you can't deny.

You should have seen his face when I began to talk,

He turned white,

And he ran out in shock.

Oh no, not I, I'm still alive,

From the woods to the wall, I'm thriving in the afterlife,

I've got eternity to live,

And I've got a trucker to forgive, and I will thrive

I am alive

Nice Try Baby

(Ice Ice Baby: Vanilla Ice)

Yo, Homies
Let's sing it

Nice nice lady
Nice Nice lady

My heart stops
Salivate and wishin'
Hoping for just a little attention
Some things just seem so unlikely
Feel like a buffoon daily and nightly
Antlers won't pop
Bro, they won't grow
Should have been full two years ago
I daydream about a rack more than I can handle
But don't want to end up above someone's mantle

Chance
Smell of her sweet perfume
She's walkin' by as I try to make room
Ready, she stops right next to me.
Everybody looking is full of jealousy
Love it, believe it
I'm making my way
I better make a move
Before she walks away
But then there was a problem
I can't resolve it
I leaned in for a kiss, and my mom totally blocked it.

Nice try baby, was a
Nice try baby, was a
Nice try baby, was a...

Who's She?

(Juicy: Notorious B.I.G.)

It was all a dream, so scared of Sportsmen magazines
Spent everyday running up and down through the evergreens
My antlers growing tall
Every Saturday, find a snack, and don't end up on the wall
I was on a walk, one look made me stop
There she was standing, sippin' in a marshy spot
Head back, got me feeling a little sidetracked
With that dewlap attached
Just one look it took. Hurrah, hurrah.
For her to think that Marvin is a superstar
Now I'm in her eyesight cuz I shine bright
Don't be afraid, time to go serenade
Born singer, the opposite of beginner
Defend her like the Marines in the harsh winters
Now we're dating, then married, family
Grandchildren next, not too shabby
I'm growing up like I thought I could
Then I woke up from my nap in the woods, it's not good
And there's no doe for me to show

Fresh Bruce

(Fresh Prince Theme Song: Will Smith)

Now, this is a story all about how
My life got flipped-turned upside down
And I'd like to take a minute
Just sit right there
I'll tell you a love story that is beyond compare

In West South Dakota born and grazed
On the same ground is where we spent most of our days
Piggin' out, relaxin', actin', a fool
Just living my life without any rules
When to my surprise, walking out of the woods
A herd was moving into our neighborhood
I got one little sight and couldn't help but stare
I said, "I think I just fell in love with that girl right there."

I trembled a tad when she came near
We didn't really mesh for what seemed to be a year
She couldn't see that we would make a good pair
But then I yelled at her, "Watch out for that bear"

I ran into that bear with all my weight
And I yelled to the grizzly, "Yo holmes, smell ya later"
She looked at me smitten
Like she finally cared
To roam the prairie in this life we would share

Bison Rhapsody

(Bohemian Rhapsody: Queen)

Is this the real life? Is this just fantasy?
Caught in the crosshairs, escaped to my family
Need to be wise, tried to devise a plan for me
That's just a decoy, got to walk gingerly
(Marvin & Elmer) Through the fog, through the snow, looking high, where'd they go?
Every way the stream flows, just want my family to be, be free

(Bruce)
Mama, we need a new plan
Gotta run away instead, across the river, as we fled
Mama, life had just begun
You were here, and now you've gone away
Trauma, ooh
I look at the sky
I wonder what life is like after the fall

I see a big silhouette of a bison
It's a moose, it's a moose, singing with a piano
Must be kind of frightening to see a moose rhyming and sing
Lay Low
Please no
'Fraid So
Lame o
No no no no

Oh, got an idea, got an idea
Got an idea for the show?
Provide some grub, play some metal inside for free
Disagree
You'll see

So you think you can stop me when life goes awry?
Though you think your life's over is not a reason to cry
So crazy; I sing from up here daily
Mama would be proud; just listen to the crowd cheer

Ooh, Bruce yeah, Bruce yeah, ooh

Tears turned to laughter

Happy she would be
Loving another chapter
Loving another chapter with you three

Every way the stream flows
